The Highlights

Beaconhouse Technology (a project of Beaconhouse Group) is a cloud-native, full-service technology company.

We are a progressive and dynamic organisation, providing end-to-end services for all your business needs including process re-engineering, IT consultancy, product development, application modernisation, customisation, and integration.

Our services portfolio includes but not limited to the following:

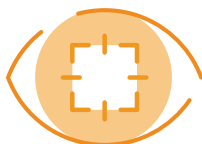

At Beaconhouse Technology, we ensure that our services and solutions are delivered by top notch technical experts.

With the three Es (Employee, Efficiency and Excellence) as our core values, our aim is to build long-term relationships with our clients and deliver world class digital solutions.

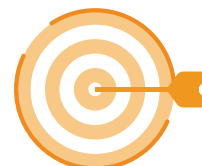

Our Vision, Mission and Core Values

OUR VISION

Beaconhouse Technology envisions to create a diversified and sustainable ecosystem to provide the highest quality digital services locally and globally.

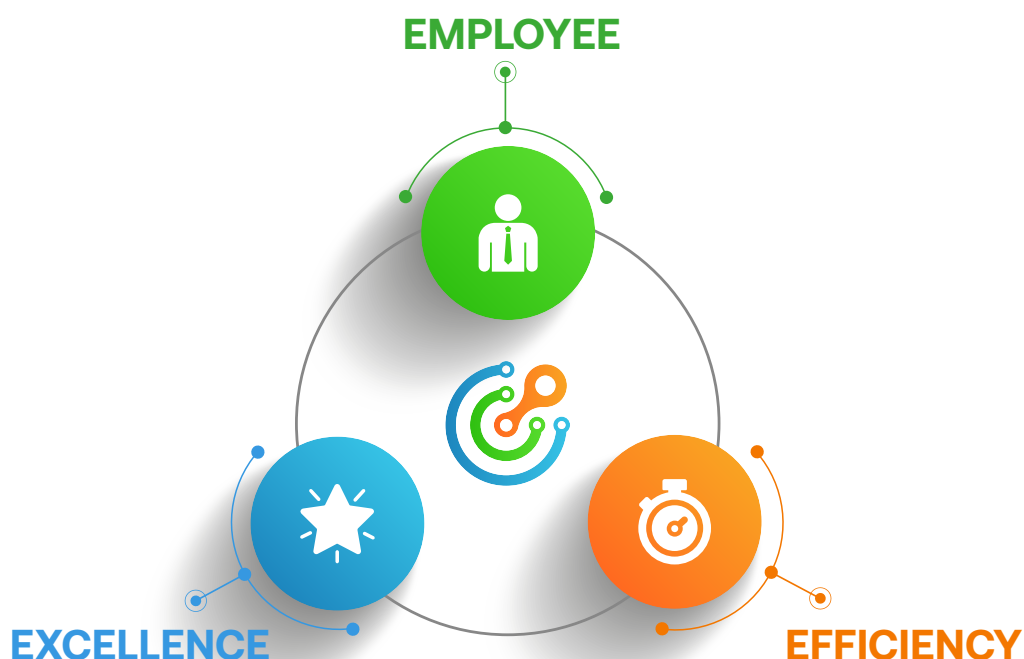

OUR MISSION

We are committed to excel in customer satisfaction through integrity, compassion and professional excellence. Our forte is to maintain stellar relationships with our customers while providing cost efficient & cutting edge technology solutions.

OUR CORE VALUES

The culture of Beaconhouse Technology revolves around the following **three Es**:

Our Core Values

Employee, Efficiency and Excellence

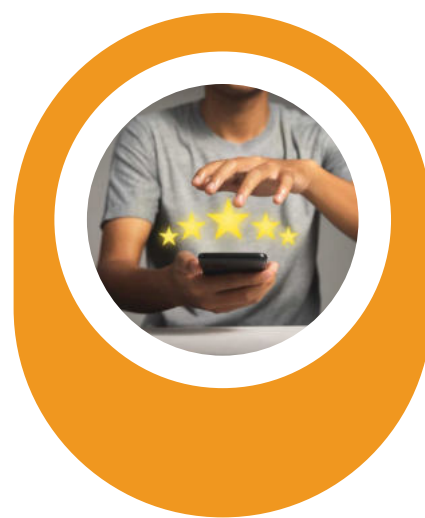

EMPLOYEE

Beaconhouse Technology is developing, retaining and investing in a diverse global workforce for impactful and sustainable business growth.

EFFICIENCY

At Beaconhouse Technology, we are focused on providing cost-effective, robust and scalable solutions with long-lasting impact. We put our customers at the center of everything we do and create amazing experiences for them.

EXCELLENCE

For a win-win situation, we strive for Organisational Excellence as well as customers' success thus making them our life-long partners.

Beaconhouse Group Profile

The Beaconhouse Group needs no introduction in Pakistan due to its productive, powerful and top-quality presence in diverse fields of life. Be it educational services, professional development, solar energy services, procurement of educational material or the hospitality industry, the Beaconhouse Group has a proven track record of satisfied customers and employees.

Beaconhouse has a global presence in 7 countries including Malaysia, Thailand, the Philippines, Oman, the UAE, Pakistan and Belgium.

Providing world-class educational services in Pakistan for over 4 decades, the group has since expanded from the Beaconhouse 'School System' to include some of the following companies and projects:

Educational Projects and Institutes:
